Cluny Muslims Garde Freinet Hagiography Medieval:

Cluny and the Muslims of La Garde-Freinet Scott G. Bruce, 2015-11-05 In the summer of 972 a group of Muslim brigands based in the south of France near La Garde Freinet abducted the abbot of Cluny as he and his entourage crossed the Alps en route from Rome to Burgundy Ultimately the abbot was set free but the audacity of this abduction outraged Christian leaders and galvanized the will of local lords Shortly thereafter Count William of Arles marshaled an army and succeeded in wiping out the Muslim stronghold The monks of Cluny kept this tale alive over the next century Scott G Bruce explores the telling and retelling of this story focusing on the representation of Islam in each account and how that representation changed over time The culminating figure in this study is Peter the Venerable one of Europe's leading intellectuals and abbot of Cluny from 1122 to 1156 who commissioned Latin translations of Muslim texts such as the Qur'an Cluny and the Muslims of La Garde Freinet provides us with an unparalleled opportunity to examine Christian perceptions of Islam in the Crusading era

Apocalypse and Reform from Late Antiquity to the Middle Ages Matthew Gabriele, James T. Palmer, 2018-09-03 *Apocalypse and Reform from Late Antiquity to the Middle Ages* provides a range of perspectives on what reformist apocalypticism meant for the formation of Medieval Europe from the Fall of Rome to the twelfth century It explores and challenges accepted narratives about both the development of apocalyptic thought and the way it intersected with cultures of reform to influence major transformations in the medieval world Bringing together a wealth of knowledge from academics in Britain Europe and the USA this book offers the latest scholarship in apocalypse studies It consolidates a paradigm shift away from seeing apocalypse as a radical force for a suppressed minority and towards a fuller understanding

of apocalypse as a mainstream cultural force in history Together the chapters and case studies capture and contextualise the variety of ideas present across Europe in the Middle Ages and set out points for further comparative study of apocalypse across time and space Offering new perspectives on what ideas of reform and apocalypse meant in Medieval Europe

Apocalypse and Reform from Late Antiquity to the Middle Ages provides students with the ideal introduction to the study of apocalypse during this period

Sensory Reflections Fiona Griffiths, Kathryn Starkey, 2018-10-22 This volume draws on emerging scholarship at the intersection of two already vibrant fields medieval material culture and medieval sensory experience The rich potential of medieval matter most obviously manuscripts and visual imagery but also liturgical objects coins textiles architecture graves etc to complement and even transcend purely textual sources is by now well established in medieval scholarship across the disciplines So too attention to medieval sensory experiences most prominently emotion has transformed our understanding of medieval religious life and spirituality violence power and authority friendship and constructions of both the self and the other Our purpose in this volume is to draw the two approaches together plumbing medieval material sources for traces of sensory experience above all ephemeral and physical experiences that unlike emotion are rarely fully described or articulated in texts

Mobile Saints Kate Craig, 2021-04-21 Mobile Saints examines the central medieval ca 950-1150 CE practice of removing saints' relics from rural monasteries in order to take them on out and back journeys particularly within northern France and the Low Countries Though the permanent displacements of relics translations have long been understood as politically and culturally significant activities these temporary circulations have received relatively little attention Yet the act of taking a medieval relic from its home even for a short time had the power to transform the object the people it encountered and the landscape it traveled through Using hagiographical and liturgical texts this study reveals both the opportunities and tensions associated with these movements circulating relics extended the

power of the saint into the wider world but could also provoke public displays of competition mockery and resistance By contextualizing these effects within the discourses and practices that surrounded traveling relics Mobile Saints emphasizes the complexities of the central medieval cult of relics and its participants while speaking to broader questions about the role of movement in negotiating the relationships between sacred objects space and people Christians and Muslims in the Middle Ages Michael Frassetto,2019-11-12 The conflict and contact between Muslims and Christians in the Middle Ages is among the most important but least appreciated developments of the period from the seventh to the fourteenth century Michael Frassetto argues that the relationship between these two faiths during the Middle Ages was essential to the cultural and religious developments of Christianity and Islam even as Christians and Muslims often found themselves engaged in violent conflict Frassetto traces the history of those conflicts and argues that these holy wars helped create the identity that defined the essential characteristics of Christians and Muslims The polemic works that often accompanied these holy wars was important Frassetto contends because by defining the essential evil of the enemy Christian authors were also defining their own beliefs and practices Holy war was not the only defining element of the relationship between Christians and Muslims during the Middle Ages and Frassetto explains that everyday contacts between Christian and Muslim leaders and scholars generated more peaceful relations and shaped the literary intellectual and religious culture that defined medieval and even modern Christianity and Islam **Religion and World Civilizations** Andrew Holt,2023-06-30 An indispensable resource for readers investigating how religion has influenced societies and cultures this three volume encyclopedia assesses and synthesizes the many ways in which religious faith has shaped societies from the ancient world to today Each volume of the set focuses on a different era of world history ranging through the ancient medieval and modern worlds Every volume is filled with essays that focus on religious themes from different geographical regions For example volume one includes essays considering religion in ancient Rome while volume three features essays focused on religion in modern Africa This accessible layout makes it easy for readers to learn more about the ways that religion and society have intersected over the centuries as well as specific religious trends events and milestones in a particular era and place in world history Taken as a whole this ambitious and wide ranging work gathers more than 500 essays from more than 150 scholars who share their expertise and knowledge about religious faiths tenets people places and events that have influenced the development of civilization over the course of recorded human history Jewish Muslims David M.
