Primarily Problem Solving Diane Drazee, 2021-09-03 Creative Problem Solving CPS is a process that allows people to apply both creative and critical thinking to find solutions to everyday problems. It is a way to enhance creative behavior and also a systematic way to organize information and ideas in order to solve problems. The overall goal of CPS training is to improve creative behavior and problem solving behavior. The skills involved are ability to select relevant information, ability to summarize information, ability to analyze social situations, ability to think creatively to generate possible solutions, ability to evaluate options based on given criteria, ability to plan activities to accomplish a goal, and ability to make inferences. *Primarily Problem Solving* allows you to give your younger students a head start on problem solving. This book presents creative problem solving in a step by step manner young children can understand and enjoy. Use the CPS process to solve the problems of the Three Little Pigs, Rapunzel, and the Frog Prince, as well as more common family problems. Each problem includes illustrated worksheets to take students through each step of the problem solving process. Teaching notes give instructors additional ideas for using creative problem solving techniques in the classroom. Fun problems and step by step guides will take students successfully from the fuzzy beginning to an effective end. The end result is confidence in being able to think through a solution rather than just latching on to the most obvious solution. Use these exercises as a part of your thinking skills class or creativity training as supplementary reading assignments or as a technique to solve conflicts in the classroom. Expand your knowledge of CPS even more with *Primarily Creativity* Grades 2-4. *An Introduction to Auditory Processing Disorders in Children* Teralandur K. Parthasarathy, 2014-02-04 Auditory processing in children APD comprises an increasingly important clinical area within the broad field of communication disorders. The chapter authors, highly regarded clinicians and researchers from diverse professional groups, contribute an impressive breadth of knowledge to explain and demystify APD. Rebecca Rupp presents a structured plan to ensure that your children will learn what they need to know when they need to know it from preschool through high school. Based on the traditional pre-K through 12th grade structure, *Home Learning Year by Year* features the integral subjects to be covered within each grade, Standards for knowledge that should be acquired by your child at each level, Recommended books to use as texts for every subject, Guidelines for the importance of each topic, which knowledge is essential and which is best for more expansive study based on your child's personal interests, Suggestions for how to sensitively approach less academic subjects such as sex education and physical fitness. **You Be Judge** Barbara Juskow, 2005 *You Be the Judge* helps students master essential skills for decision making and evaluation.
